

Honorable Judge Woodlock,

I'm writing to you because I cannot think of any avenue to pursue. Per your instructions - in my J.O.C - I received "pharmacological treatment upon my release" - and was stabilized on a medication that worked well for me. Now I am serving 6 months on a violation and am yet to receive my medication. There are others here on the same medication, but for some reason they are giving me the "new around". I am requesting that you could intervene in any way you can, whether it be having me transferred to a facility where I'll be properly medicated, or to order Walpole to give me my correct medication. I've contacted my attorney, Miriam Conrad - who hasn't been able to make any progress. I realize I only have 3 1/2 months left on my sentence, but I have no concentration, I'm just frankly a mess - off of my medication. (My medication is: Adderall - 10mg 2x Daily prescribed by: Marth McFadden (MD) (617-883-0175) For: Attention Defect Hyper active disorder.) Without my meds I act impulsively and cannot think any of my actions

through. I know you are busy, but
I don't know where else to turn.
I'd appreciate your help.

Coleman
